

FREE ADMISSIONS PASSES

The Gibbon Public School recognizes and appreciates the contributions the senior citizens of the community have made to our school, city, state, and nation. We desire these seniors feel welcome within the school and at school events. In an effort to achieve this goal, the Gibbon Public School will offer complimentary season activity cards to all citizens of Gibbon who are 65 years of age or older. The superintendent, working in conjunction with the building principals and the activities director, shall be responsible for developing the necessary procedures to implement this policy.

The Gibbon Public School is proud of our dedicated staff. The school particularly appreciates those staff members who have shown loyalty to the district by serving the district for extended periods of time. In recognition of employees who have served the district for ten or more years, the district will make available to these employees, upon separation from the district, lifetime activity cards. The superintendent, working in conjunction with the building principals and the activities director, shall be responsible for developing the necessary procedures to implement this policy.
