

SAFETY DRILLS

All schools are required to instruct and drill students on emergency procedures so that students may respond to an emergency without confusion and panic. Each building administrator will conduct emergency drills in accordance with state statute and the district's Emergency Safety Plan.

Drills and instruction on fire emergencies shall include routes and methods of exiting the school building. At least 10 fire drills shall be conducted each year, including at least 2 drills during the first two weeks of the school term.

Instruction on tornado dangers and natural disasters shall be conducted annually.
