

CARS AND OTHER TRANSPORTATION

Students in grades 7-12 should arrive on the west side of the building. Students parking on school property must register their vehicle with the office to obtain a parking permit. Vehicles parked on school property without the display of proper registration may be subject to towing at the vehicle owner's expense. Parking on the school lot authorizes administrative search of the vehicle.

When bus transportation is provided for school sponsored activities no vehicles are to be driven by students without prior approval from the administration and student's parents.
